Re: Response to Illinois EPA's Request for Information regarding the Chemetco Site  
Hartford/Madison County, Illinois

Dear Mr. Smith,

Please accept this letter as Federal-Mogul Corporation's ("Federal-Mogul's") acknowledgement of receipt of the Illinois Environmental Protection Agency's February 22, 2008 Request for Information concerning the Chemetco Site ("Information Request"). This letter was received at Federal-Mogul's facility located in Blacksburg, Virginia on February 25, 2008. As indicated in the Information Request, a response is due within 30 days of receipt of the letter. However, based on the reasons set forth below, Federal-Mogul respectfully requests that Illinois EPA grant it a 30-day extension, until April 25, 2008, to respond to the Information Request.

While preparing Federal-Mogul's response to the Information Request, we have identified other Federal-Mogul plants, in addition to the Blacksburg, Virginia plant that may have used the Chemetco Site. At least one of these additional sites has been closed. Federal-Mogul intends to submit a consolidated response for all plants. It will take more than 30 days to retrieve and examine relevant plant files to determine whether and where information responsive to the Information Request exists, and to respond to the Information Request.

Based on the foregoing reasons, Federal-Mogul respectfully requests that it be granted an additional 30 days, until April 25, 2008, in which to respond to the Information Request. Thank you for your time and attention.

Sincerely,

Mark T. Bauer  
Global Environmental Manager
